DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, 7-8, 10, 12, 13 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Anderson et al., US 6,686,414.

The patent issued to Anderson et al., teach a polymer composition comprising 50% carboxylic acid and a cross-linking agent (abstract). Said composition is neutralized with a base material (column 3, 63-column 4, 15). Anderson et al., teach coating the composition on a fibrous substrate and then curing in an oven at 130 degree C (column 5, 47-55 and column 6, 1-35, column 7, 15-30, column 9-15). Said composition is taught as superabsorbent (title). Suitable fibrous substrates include non-wovens made with natural and synthetic fibers (column 6, 23-55). Suitable carboxylic monomers include methacrylic acid (column 3, 39-45).

Allowable Subject Matter

3. Claims 6,9,11, 15, 16, 19 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
